Dr. Fauci will discuss lessons learned in battling the COVID-19 pandemic, the ensuing public health crisis, and varying government responses in the US and Europe.

The live streamed event will include a panel discussion featuring **Dr. Denise Basow**, President & CEO of Wolters Kluwer Clinical Effectiveness business, and Dr. Marion Koopmans, virologist, and advisor to the World Health Organization. The panel will be open to questions from the audience. Topics of discussion will include:

- The acceleration of medical literature and challenges with getting accurate information into people's hands.
- Overcoming inequities in healthcare and barriers to vaccination.
- Telehealth - what the future holds to make it effective for patients and physicians.
